Supplementa a me proposita, quae Bruce praeivit (cf. McCaul *Canadian journal* 1865 p. 319), maiore ex parte certa sunt. Legatus v. 7 aliunde notus non est. Praeter Burrium, qui opus a cohorte aut factum aut reffectum, fortasse basilicam vel simile aedificium, curabat, v. 10 praeterea potuit etiam qui instabat operi nominari; praefectus autem magis putandus est curasse, quam instituisse.

Accedunt castella miliaria vicina.

Statio octava Borcovicium erat. Ita enim, aut *Borcovitio* aut *Brocovicio*, codices notitiae optimi habent, *Borcovico* pauci deteriorum; eodemque etiam ducit *Velurition* Ravennatis 5, 31 p. 432, 18 quod a Borcovicio vix potest diversum esse. Atque hae forma sola

videtur respondere analogiae; prorsus ei simile est Longovicium (supra cap. XXVI) atque innumera praeterea in Britannia reperiuntur nomina locorum in *ium* exeuntia, veluti Bremenium Coccium Conovium Gobannium Londinium Luvallium Verulamium Viroconium;
